First Term Test - 2012

Mathematics

Grade 9

1½ hour

Name :

Index No. :

* Answer all the questions in the given paper itself.

- 01) i) Write 2000 in scientific notation

.....
ii) Write 4.1×10^5 in general form.

- 02) When a number rounded off to the nearest 10 the value received is 70. Write down the maximum and minimum values that number can be obtained.

.....
.....

- 03) Round off 5678 to the nearest 100 and 1000 separately

.....
.....

- 04) i) Write 0.1666 in scientific notation and round off 0.1666 to the nearest 2nd decimal place.

.....
.....

- 05) Simplify $5 - \frac{1}{2} \times \frac{1}{4}$

.....
.....
.....

- 06) The general term of a number pattern is $5 - n$. Find the first two terms of it

.....
.....
.....

- 07) Write the next term and the common term of the number pattern 15, 18, 21,

.....
.....
.....

- 08) Find the value of $78^2 - 22^2$ using the knowledge of factors.

.....
.....
.....

- 09) $\frac{5}{8}$ of the students of a mixed school are boys. If 18 are girls , find the total number of students in the school.
