Test - 09 Read the following paragraph and answer the questions given below.

Koalas

Koalas live in eucalyptus forests in Eastern Australia. There are about 600 species of eucalyptus trees in Australia., but Koalas eat the leaves of only 15 or so, probably the others are too toxic.

The Koala is often mistakenly referred as the koala bear due to its rounded face and compact body. Its ears are big, round and furry. It has strong limbs, which it uses for climbing. It spends most of its time on tree tops. Koalas tend to move slowly and sleep for about 20 hours a day. In the past, Koalas were killed for their skins and their forests were cut down to make way for agriculture. Since being granted strict protection, they have gradually increased in number.

1. Where do Koalas live?

.....

2. What do they eat?

.....

3. How long do they sleep a day?

.....

4. Underline the correct answer

i. Koalas use their strong limbs to (walk slowly/climb trees)

ii. People killed Koalas for their(meat/skin/skin and fur)

5. Fill in the blanks.

i. are their favourite places. So they spend most of the time there.
