

English

Grade 7

5.3- Transfers information into other forms.

Task 1

Read the description carefully and fill in the grid.

We live on a planet called Earth. The Earth is round, like a ball. It is one of eight planets which move around the Sun. The path each planet takes around the Sun is called its orbit. The Sun and the planets together are called the Solar System. The Earth is the only planet in the Solar System which has living things. Most of the surface of the Earth is covered in water. The largest pieces of land are called continents. There are seven continents. They are Africa, Antarctica, Asia, Australia, Europe, North America and South America.

1. The shape of our planet earth	
2. The number of planets	
3. The sun and the planets together	
4. Most of the earth surface is covered with	
5. The largest pieces of land	

Task 2

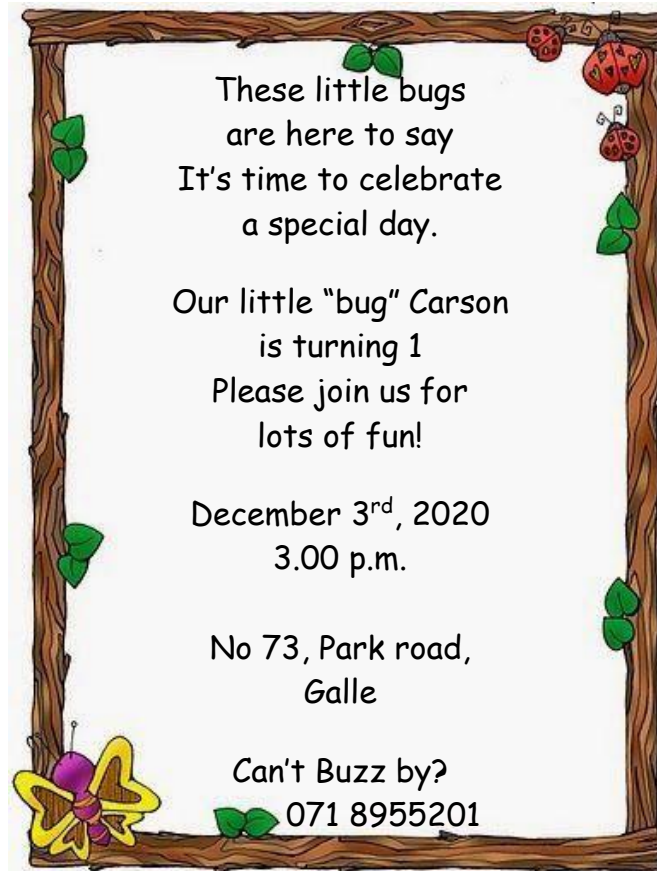

Read the descriptions carefully and put the correct number under each picture.

1. This ladybird is laying eggs. She lays them on a plant which is rich of their food.
2. The eggs hatch out. Dark grubs creep out of each egg. Each grub has six legs. They eat the greenfly.
3. The grubs eat and eat until their skins burst. They creep out of the old skins.
4. Now the grubs have grey-blue skin. They eat again until they are full. They hang upside down. Their skins burst. Each grub has become a chrysalis.
5. One week later, a yellow ladybird creeps out. After a while it gets its red colour and seven black spots.

Task 3

Read the invitation and fill in the information sheet.

1. this invitation is for a	
2. The name of the birthday boy	
3. The date	
4. The time	
5. The place
