“Mihin”

Kekeriya,

Alpitiya.

23.04.2021

Dear Abeesha,

Hope you are keeping well we all are fine here. How about the new things going on?

We had our school new year festival last week. Actually it was and unforgettable

And enjoyable experience, for all of us. do you believe? I did the announcing of that special celebration, in English. There were lots events such as, breaking the pot, tug of war eyeing the elephant, reading the blind, balance walking, musical chair and changing the hat.

We started the programme at 8.30 in the morning the and it finished at 3.30 p.m. I took part in balance walking and was able to get the second place. The most favorite event was catching the balloon. Most of the students who took part in that event got bathing, making the audience huge laughter. At the end of the celebration, we were given the chance to give our ideas on the programme.

Abeesha, we all were very happy and thankful to our teachers for organizing such event to raise the awareness of traditional folk game.

I'm waiting for a reply, with your new information.

Your friend

Kalani.

Activity 01.

Read the letter and answer the questions.

01. Who is the sender of this letter?
02. What is his address?
03. When did she write the letter?
04. Who is the receiver of the letter?
05. What was the special celebration Kalani had in her school?
06. List out the games or event there were in the school new year festival?
07. When did it start and when did it finish up?
08. To whom Kalani is thankful?

Activity 2

Read the passage and underline the correct answer.

The blue whale is the largest living animal to have ever lived on the planet earth. Blue whales are larger than the largest dinosaur that ever lived. The largest blue whales can grow as large as 100 feet long, which is longer than three buses put together! Even though blue whales are huge, they eat tiny creatures known as krill. Krill are tiny shrimp-like shellfish. The whale simply opens its mouth, fills it with krill and salt water, and filters the water out of plates in its mouth called baleen. The blue whale may eat over 8000 pounds of krill in a single day.

01. The blue whale is

- a) large but smaller than a school bus
- b) large but smaller than some dinosaurs
- c) larger than any animal has ever lived on earth
