ti it	i) Making the victim Relax	ii) Looging the tight of the					
	iii) Washing the wound with soap	ii) Loosing the tight cloths					
	y was media with soap	iv) Giving king coconut to drink					
12)	A poisonus arthropode but not a carnivor	epil V ii a abnul fawi li					
1000	i) Bee ii) Trantulla	1115 <b>6</b> 11					
	PUR I AMARIA NECE	III) Centipede iv) Scorpion					
13)	Following is a symbol exhibited in a hospital. The message of it is						
	i) Danger - Biological hazard ii) Danger - Laser hazard						
	iii) Danger - Highly flammable W Danger - Radiation hazard						
	0 85	Pariger - Natiation nazard					
14)	Atomic theory forwarded by						
76 F. S.	i) Benjamin franklin	ii) Isac newton					
	iii) Charles Darwin	iv) John Dalton					
		W John Dalton					
15)	'C', & 'Cl' are two internation symbols for two elements. The two elements respectively are						
1860	i. Carbo, calcium	ii) Copper, carbon					
	iii) Chlorine, calcium						
	The state of the s	iv) Carbon , chlorine					
16)	The metal known as 'Aurum' in Latin is						
,	i) Mercury ii) Silver	iii) Oold					
	ii) Slivel	iii) Gold iv) Copper					
17)	Not a feature of 'Alumenium' is						
,	i) Good conductor	ii) Light ailuanu matal					
	iii) Used to make magnets	ii) Light silvery metal					
	my obed to make magnets	iv) Used as a packing material					
18)	Head in Wildumizing with a dis						
.0)	Used in 'Vulcunizing rubber' is i) Alumenium ii) Iron						
	i) Alumenium ii) Iron	iii) Oxygen iv) sulphur					

19)	<ul><li>Follwoings are 3 statements about density</li><li>a) If the density of an object is greater than a liquid the object will sink in that liquid.</li><li>b) If the density of an object is equal to the denity of a liquid the object will sink and float.</li><li>c) When dissolving a substance in a liquid the density of the liquid get increased.</li></ul>				
The tru	ue statements,				
	i) Only A	ii) Only A & B	iii) Only B & C	iv) A, B, C	;
20)	The instuments which	n is used to measure t	the density of a liquid	is	
	i) Hydrometer	ii) Thermometer	iii) Potometer	iv) Barome	eter.
* Ansı	wer all questions.	PART	<u>- 11</u>		
,	wor all quodiono.				
01) A)	Fill in the gaps select	ing the suitable answe	er.		
	Atoms , Pressure , Montane , Density , increases , Viper , cobra , Volume , Unit volume, Villu , Dry mixed evergeen  i) A solid has a fixed shape, and fixed				
	iii)				
	vi) Hortan plains is		forest.		
	vii) is the highly poisonous snake in sri lanka				
	viii)	has a trangu	lar shape head		
ix) when dissolving sabstances the density of a liquid					
	x) When heating a ga	ase its	decreases		(10 marks)

В)	Inter	ternational standeard symbols are used to express weater informations. ate the message given form each of the follwing symbols.		
	Oluli	o the message given form each of the following symbols.		
	i)	• •		
	ii)	7		
	IIIN			
	iii)			
	iv)	• *		
	v)			
	vi)	(6 marks)		
C)	i)	Name 2 instances where international symbols are used.		
	ii)	Name 2 factors than should be considered when using symbol. (4 marks)		
02)	The eco-systems are two types as land and aquatic eco-systems,			
	i)	Give 2 examples for natural fresh water environments in Sri Lanka.		
	ii)	State 2 brakish water bodies		
	iii)	i) State 2 uses of rivers		
	iv)	) State 2 ways of polluting rivers		
	v)	What is an estuary ?		
	vi)	State 2 features of a wet evergreen forest		
	vii)	In which type of forest that 'Weera , Palu , Burutha' cab be seen ?		
	viii)	State 2 importance of wetlands		
	ix)	State 2 features of an unorganized urban settlements.		
	x)	State 2 instances (e) of using the diffeiences of in day to day activities.		
	xi)			
		(20 marks)		

03) A) Write the symbols of the following elements and write one instance of using each element.

- i) Iron
- ii) Copper
- iii) Alumenium
- iv) Mercury
- v) Gold

B)

In the above set - up the two rolls of paper were burnt by students.

- i) What will be the observation when the rolls of papers were burnt.
- ii) What is the conclusion according to the obervations
- iii) What will be the observation if a thread is used instead of two metal wires
- iv) Name 2 metals used to make a bimetalic strip
- v) State 2 instances where the expansion of solids are used productivety
- vi) State 2 feature, of solids, liquids and gases seperately.

(10 marks)
